

Playful Way Of Learning Languages with New Amici

Topic: Learning languages in tandem

 45 minutes

 from 10 years (from grade 5)

Necessary material/Preparation

- One or more game sets »New Amici«
- The game is available for different language pairs
- The teacher should choose relevant combinations for the language spoken in class (<http://newamigos.com/index.php/en/>)
- max. 8 players per game set

Learning objective/Skills

The learners

- learn on their particular level (A1-B1).
- learn vocabulary and grammar in different languages (verb conjugations).
- learn set locutions.
- learn regional studies.

Arrangement

Individual work, tandem

Lesson plan

The players get divided into teams with different language pairs. A native speaker/expert can be the game master. The players read through the game instructions and divide themselves into pairs. Then, they learn and play.

Detailed description of the most important activities

Activities	Comments
1. A player rolls the dice.	
2. Depending on the outcome he/she draws a card.	
3. The game master reads the task out loud.	
4. The player solves the task and the next player gets the dice.	The cards with the solved tasks should be tucked in the back. Cards that are not yet solved stay on top of the stack so that it is profitable to listen to one another.

Further tips (Ideas for further activities, project days, open assignments)

It is also possible to invite the parents of the students and especially older students that work for the school newspaper or radio capturing the event in pictures and asking the guest about the dishes.
